¹Secondary standards - Non-enforceable federal guidelines, however, states may choose to adopt them as enforceable standards. Please check with your local regulatory agency. For additional information, you may contact the EPA's "Safe Drinking Water Hotline" toll free at 1-800-426-4791.

*NELAC does not offer certification for this parameter.

Analytical results and reports are generated by Environmental Hazards Services, LLC at the request of and for the exclusive use of the person or entity (client) named on this report. Results, reports or copies of same will not be released by Environmental Hazards Services, LLC to any third party without the prior express written consent from the client named in this report. This report applies only to those samples taken at the time, place and location referenced by the client. This report makes no express or implied warranty or guarantee as to the sampling methodology used by the individual performing the sampling. The client is solely responsible for the use and interpretation of these test results and Environmental Hazards Services, LLC makes no express or implied warranties as to such use or interpretation. Environmental Hazards Services, LLC is not able to make and does not make a determination as to the environmental soundness, safety or health of a property from only the samples sent to their laboratory for analysis. Unless otherwise specified by the client, Environmental Hazards Services, LLC reserves the right to dispose of all samples after the testing of such samples is sufficiently completed or after a five day period, whichever is greater.
